

AMENDMENTS TO THE SPECIFICATION

Please amend the Specification by replacing the paragraph identified below with respect to the paragraph numbering found in U.S. Patent Application Publication US 2001/0023446, *i.e.*, this application, as published.

Please replace paragraph [0042] with the following replacement paragraph:

[0042] The user interface means UI generally comprise a keyboard, a display, a loudspeaker and a microphone, which are not presented in ~~FIG. 6~~ FIG. 5. With the user interface means UI, the control unit CPU may show the available information sets to the subscriber (407) and the subscriber may then choose the information set to be used. By using the user interface means UI, it is advantageously possible to view and change the settings of stored information sets and give further instructions to the control unit CPU. According to an embodiment, the user may also form new information sets or modify already existing information sets by using the user interface means UI.
